

## Newsletter September 2023

Dear TRANSIT stakeholder,

September has been a busy month for the TRANSIT project. A 4-day training session under the title "Pathways Towards Carbon Neutral Power Systems: From Theory to Applications" took place at the university of Cyprus between the 12-15<sup>th</sup> of September. There, several members of the consortium gave trainings on matters related to the energy transition, from a theoretical and practical point of view, to interested students at the university. Check out the agenda [here](#).

[Transit training in Cyprus \(12-15 september\)](#)

Transit project will offer a new training and dissemination activity next september in the University of Cyprus, Nicosia, under the tittle "Pathways Towards Carbon Neutral Power Systems: From Theory to Applications".

During the same week, the entire consortium arrived in Cyprus to take part in the third consortium meeting of the TRANSIT project, where several completed deliverables were discussed, and future work was planned to achieve all TRANSIT project goals.

Training in Cyprus, 12<sup>th</sup>-15<sup>th</sup> september 2023

Funded by  
the European Union  
AGREEMENT No. 101075747

UK Research  
and Innovation  
AGREEMENT No. 10053168

Lastly, two more internships were concluded at the end of August/beginning of September. One student from the university of Nis and one from the university of Zagreb joined companies active in the energy transition industry in Montenegro and Cyprus, respectively, for two weeks, to gain insights on the needs of industry.

Thanks again for your interest in the TRANSIT project !
